TELEGRAPH AND TELEPHONE.

A list of the works upon the electric telegraph and the telephone in the Boston Public Library.

It is advisable to consult also works, periodicals, and publications of societies devoted to electricity and magnetism in general; as well as the Bulletin of this Library for April, 1892, for titles of works on electricity to be found on its shelves. This list has been arranged under the following heads:

TELEGRAPH.
Theory and history.
Applications.
Bibliography.
Dictionaries.
Periodicals and transactions, etc., of societies.
ATLANTIC TELEGRAPH.
CONSTRUCTION AND OPERATION OF TELEGRAPH LINES, WIRES, TESTS, ETC.
ELECTRICAL INSULATION.
MILITARY TELEGRAPHY.
MULTIPLE TELEGRAPHY.
POSTAL TELEGRAPH.
SUBMARINE TELEGRAPHY.
TELEGRAPH COMPANIES.
TELEGRAPH LAW SUITS.
TELEGRAPHIC CODE.
TELEGRAPHIC DETERMINATION OF LONGITUDE.
TELEPHONE.
Periodicals.
TELEPHONE COMPANIES.
TELEPHONE LAW SUITS.

TELEGRAPH.

Theory and History.

Abernethy, J. P. The modern service of commercial and railway telegraphy, in theory and practice, including the railway station and express service. 6th ed., enl. Cleveland, 1887. Illus. Portr. 3966.28

Arnoux, E. La lettre électrique. Nouveau service télégraphique. Paris, 1867. 7 pl. No. 1 in *5963.56

Ayrton, W. E. On some points in connection with the Indian telegraphs. With discussion. In Society of teleg. eng. Journal. Vol. 2, pp. 180–205. London, 1873. *7964.1.2

Baur, C. Die Entwicklung der Fernsprechkunst. Basel, 1886. No. 1 in 2900a.50.9

Bear, S. J. M. Telegraphing without wires. Illus. 13 pp. In Amer. instit. of elec. eng. Transactions. Vol. 1. N. Y., 1884. *3986.5.1

Behm, E. Die modernen Verkehrsmittel, Dampfschiffe, Eisenbahnen, Telegraphen. Eine geographisch-statistische Übersicht. Gotha, 1867. Maps. No. 4 in *6271.52.4

Belloc, A. La télégraphie historique depuis les temps les plus reculés jusqu'à nos jours. Paris, 1888. Illus. Portrs. 3960.63

Blavier, É. E. Cours théorique et pratique de télégraphie électrique. Paris, 1857. Illus. 6 pl. 3965.11

Bontemps, C. Les systèmes télégraphiques; aériens, électriques, pneumatiques. Paris, 1876. Illus. 12 pl. Facsimile. 3965.75

Boston municipal govt. Memorial of S. F. B. Morse. Boston, 1872. 4444.57

Bradley, L. Memorial against the extension of the patent of S. F. B. Morse for the electro-magnetic telegraph. [N. Y.? 1860?] 7962.114

Bréguet, L. Manuel de télégraphie électrique. 4e éd., aug. Paris, 1862. Illus. 4 pl. 3966.17

Briggs, C. F., and **Maverick,** A. The story of the telegraph and the history of the Atlantic cable. N. Y., 1858. Illus. Portr. Map. 5963.21

Brooks, D. Report on telegraphs and apparatus. Illus. Wash., 1875. [Reports of the Commissioners of the U. S. to the Vienna international exhibition, 1873. Vol. 2.] *8025.59.2

Bunnell, J. H., & Co. Manual of telegraphy and description of instruments for use on private telegraph lines. N. Y., 1888. 7969.64

Bureau international des administrations télégraphiques. Statistique générale de la télégraphie dans les différents pays de l'ancien continent [depuis 1849 jusqu'à 1869, et l'année 1870]. Berne, 1871, 73. 2 nos. in 1 v. 7960a.21

Caudery, H. Le télégraphe entre l'ancien monde et le nouveau, suivi de la télégraphie électrique sans pile dans les bureaux intermédiaires. Lausanne, 1861. Pl. No. 2 in *5968.71

Chenut, L. La sténo-télégraphie, nouveau système de télégraphie rapide par G. A. Cassagnes. Paris, 1890. Illus. No. 2 in 3963.112

Chesson, F. W. The Atlantic cables. A review of recent telegraphic legislation in Canada. London, 1875. 7962.74

Clark, J. L., and **Sabine,** R. Electrical tables and formulæ for the use of telegraph inspectors and operators. London, 1871. Illus. 5969.13

Collins, P. McD. Proposed overland telegraph via Behring's strait and Asiatic Russia to Europe. [Map.] N. Y., 1874. *6289a.10

Colson, C. M. R. Traité élémentaire d'électricité avec les principales applications, par R. Colson. 2e éd. Paris, 1888. Illus. 3967.130

Conty, H. A. de. Guide pratique des postes et des télégraphes. 12e éd. Année 1882. Paris. [1882.] 5649.44

Cook, W. The telegraph. [A poem. Anon.] [Salem, 186-?] No. 22 in *4506.54

Craig, D. H. Letter to F. M. Edson [on the House telegraph lines]. [N. Y., 1853.] No. 13 in *5963.56

Craig's manual of the telegraph illustrating the electro-mechanical system of the American "rapid" telegraph co. of New York. N. Y., 1879. 7969.71

Telegraph and Telephone

Culley, R. S. A hand-book of practical telegraphy. London, 1863. Illus. 3966.18
— Same. 2d ed., enl. London, 1867. 5963.11
— Same. 5th ed., enl. London, 1871. Illus. Pls. 5963.17
— Same. 7th ed., enl. London, 1878. Pls. 3964.65

Cyclopædia of electrical engineering . . . a practical guide for artisans, engineers, and students. Phila., 1891. 2 v. Illus. Portrs. *3965.122

Davis, Daniel. Book of the telegraph. Boston, 1851. Illus. No. 1 in 3962.29
— Same. 2d ed. Rev. by T. Hall. Boston, 1858. Illus. Pls. No. 5 in *5968.71

Degrand, P. P. F., and others. Railroad and telegraph to San Francisco. [Boston, 1849.] No. 9, 10 in *4404.52

Despeissis, L. H. La sténo-télégraphie, nouveau système de télégraphie breveté par G. A. Cassagnes. Paris, 1889. Illus. [In French and English.] 3963.112

Dickerson, E. N. Joseph Henry and the magnetic telegraph. Address at Princeton college, June 16, 1885. N. Y., 1885. 5964.26

Drohojowska, A. J. F. A., comtesse. Les grands inventeurs modernes. Télégraphie: Amontons, Chappe, Ampère, Morse, Babinet, Sudre. 6e éd. Tours, 1887. Illus. 3966.130

Du Moncel, Théod. A. L., comte. Télégraphie électrique. In his Exposé des applications de l'électricité. 2e éd. Tome 2, pp. 1–144. Paris, 1856. 3966.14.2
— Same. 3e éd. Tome 3. Paris, 1874. 3962.56.3
— Traité théorique et pratique de télégraphie électrique. Paris, 1864. Illus. Pls. 3966.15

Eden, A. Morse signalling by magneto-electric currents. With discussion. Illus. In Society of teleg. eng. Journal. Vol. 9, pp. 50–56. London, 1880. *7964.1.9

Electricity and the electric telegraph. From Cornhill mag. Vol. 2, pp. 61–73. London, 1860. No. 10 in *5800a. 51; *7313.1.2

Etenaud, A. La télégraphie électrique en France et en Algérie depuis son origine jusqu'au 1er jan. 1872. Précédée d'une notice sur la télégraphie aérienne. Montpellier, 1872. 2 v. in 1. 3965.57

Fahie, J. J. A history of electric telegraphy, to the year 1837. London, 1884. Illus. 5968.60
Bibliography, pp. 531–536.
